<http://www.ionickmagnesium.com>

[IONICKMAGNESIUM.COM](http://IONICKMAGNESIUM.COM) has been a viable on line web site for over 11 years. The products sold are marketed through Freedom Plus Corporation established in 1998. Our products are solely manufactured by MMI Labs with the goal of "Bringing You Comfort Through Better Health". "Your Business is our Blessing" and we much appreciate the support of all the customers and friendships we have developed over the years.

All of the products purchased through IONICKMAGNESIUM.COM have a money back guarantee of thirty days regardless of the reason for the return upon a requested authorization given by the sales department.

Natural Ingredients are the base of all of our supplements and are sold in liquid form that means they are easy to ingest, no big tablets or capsules to make swallowing difficult. Take straight from the bottle or dilute in water and drink and the goal toward better health is on the way.

The offered Skin Care products are also formulated with natural ingredients. Sprayer application makes them easy to use, just wet the skin and let them dry to do their magic.

All products are the exclusive formulas of MMI Laboratories and were developed by Dr. R. Gunderson, PhD, NDCC, DD. Dr. Gunderson spent many years in the Pharmaceutical Industry for a period of time working with Doctors doing AIDS research and began to come to an understanding that there might be a better alternative to a healthy body. This lead him to study Natural Healing practices obtaining two degrees in Natural health. With his training in this arena he began the process of developing minerals available in liquid form. With much research and formula development the current list of mineral supplements was obtained.

All of his liquid supplements work on the predication that the formulation process replaces the work of the stomach. This means that the elemental minerals are available to be absorbed with high efficiency and at much lower doses than tablets or capsules. As action is not required by stomach to first dissolve the product and then do its chemical process to release the elemental minerals means they are available to be absorbed the moment they enter the body. And as the stomach is only about 10% efficient a much lower dose of the particular mineral is required.

Some of this knowledge was then applied to potential skin care products leading to the present selection. Experience over time has shown much promise to lively and younger looking skin.

## LIQUID IONIC MAGNESIUM

***Magnesium: A mighty mineral indeed!*** Liquid Ionic- Magnesium is a dietary source that is easily absorbed into the cells of the body. It addresses deficiencies that cause health concerns. Depletion can be caused by antacids, anti-inflammatory, antibiotic, diuretics, birth control and many others forms of medications.

Muscle contraction, glucose metabolism, electrical impulses of the heart, bone formation all rely on this mighty mineral to get the job done! If truth be told, the human body cannot function normally without magnesium. Sometimes when mysterious health symptoms arise it can be time to ask, "Am I magnesium deficient?"

***Magnesium: An essential mineral.*** The chief function of magnesium is to activate certain enzymes, especially those related to carbohydrate metabolism. Another role is to maintain the electrical potential across nerve and muscle membranes. It is essential for proper heartbeat and nerve transmission. It is not completely clear what long-term damage is being done to the body by having low levels of magnesium.

### Did You Know?

Magnesium is more important than calcium, potassium or sodium as it is required to regulate them. Not many people are aware of the great roll magnesium plays in the proper functioning of the body. After oxygen, water, and basic food magnesium may be the most important element needed by the body. It is so vitally important, yet nearly completely ignored. Magnesium activates over 300 different biochemical reactions for the body to function properly thus making it a very important mineral for the body. Everyone knows the serious consequences from the lack of oxygen, water and food, but very few realize the consequences of magnesium deficiency.

**Nano-Ionic Magnesium  
Liquid with Vitamin C  
16 oz**

**Nano-Ionic Magnesium  
Concentrate with Vitamin C  
2 oz**

**Ion Channel Magnesium  
Dropper Concentrate with  
Vitamin C  
2 oz**

**Nano-Ionic Magnesium  
Sublingual Spray  
with Vitamin C  
2 oz Concentrate**

## SYMPTOMS OF LOW LEVELS OF MAGNESIUM

The following is a list of things we can watch for concerning low levels of magnesium in humans:

- Sleep disorders
- Insomnia
- Fatigue
- High Blood pressure
- Tensions of the body
- PMS
- Kidney stones
- Bone Spurs
- Osteoporosis
- Muscle cramps
- Irregular heartbeat
- Backache
- Headache
- Irritability
- Depression

- Constipation
- Lack of mental acuity
- Accelerated aging
- CFS (Chronic Fatigue Syndrome, partial in many cases complete)
- CVND (Cardiovascular Nutritional Deficiency)
- Eye and facial Tics LMR (low magnesium relationship)
- Tourette's syndrome LMR (low magnesium relationship)
- Heavy metal poisoning due to low magnesium levels
- Oxygen deprivation due to LMR
- Compliment to Omega 3-6-9 fatty acids acting as anti-inflammatory being denied due to LML (low magnesium levels)

### Nano Particle Ionic Magnesium

- Symptoms of Low Levels of Magnesium
- Magnesium and Loose Stools
- Testing for Magnesium Levels
- Various Magnesium Studies
- Chocolate, Diabetes, Low Energy & Fatigue
- Heavy Metal Poisoning
- Nano Particle Ionic Form Magnesium
- Transplant Patient Information

Magnesium is one of the most important elements for the human body, and many of us simply do not get enough of it. Deficiency of magnesium can cause all sorts of ails, so it's

important to make sure that you are getting enough. Ionic Magnesium is a dietary supplement that helps you regulate your levels of magnesium.

These levels can be affected by many different factors. Antacid and anti-inflammatory medications, as well as diuretics, antibiotics, and birth control can deplete normal magnesium levels. As many of us need these medications, a product like Ionic Magnesium helps give us the supplemental minerals that play a critical part in overall health.

We have been selling on the Internet since 2002, providing our customers with high quality liquid mineral supplements. Our specialty is ionic magnesium, plus calcium/magnesium, zinc, potassium and iron. Also available is a calcium/magnesium powder that is converted to ionic form when dissolved in water. All of our supplements are sourced from natural mineral raw materials.

IonicMagnesium.com has been a trusted source for these vital supplements for more than 10 years. Our customers trust our products to counter low magnesium levels that have caused them troubles. They come as a liquid mineral supplement or as a powder that dissolves in water. This helps the body absorb the supplements fully, and prevents bad reactions in the stomach.

We offer an ionic magnesium supplement in a variety of forms: pre-diluted 16 oz bottles, concentrated bottles to be diluted at once, or with a dropper to dilute individual servings, and in a sublingual spray to always carry with you. Each also contains useful Vitamin C, which is necessary for a healthy immune system, a key for fighting free radicals, and good overall health.

Additionally, we carry Iron, Calcium, Zinc, and Potassium mineral supplements. Each of these are commonly missing from the diets of both men and women. Raahj Natural Red Iron works well for pregnant women who need to maintain good Iron levels during their pregnancy. Our Potassium supplement will help you fight fatigue from exercise. And sufficient Zinc has a multitude of benefits that you can enjoy with our Nano Ionic Zinc.

The source of all our supplements is raw natural minerals. The supplements have been developed by Dr. R. Gunderson, PhD, NDCC, DD to supply you with the proper levels of magnesium and other minerals. Contact us to learn more about any of our products and their benefits.
